

We believe in putting the ooh in cruises.

So we don't believe in the hum drum. The ordinary average. Or the one size fits all standard package.

We don't believe we're all in the same boat.

We believe you shouldn't have to settle for less. Or ever have to ask for more.

It's all part of our Rockstar Service. Our belief in the tailor made. In doing the extraordinary. In having all those special little magic touches ready and waiting. And never waiting to be asked. This is how we cruise.

We believe extra special should come as standard.

So however far you're travelling, we'll make your money go further. With free cabin upgrades. Free hotel upgrades. And a lot more besides.

When it comes to service, we believe in always going the extra nautical mile.

We believe a cruise holiday should be plain sailing.

We don't believe a holiday should be hard work. Not when we can do it all for you.

So when you book a long haul cruise with us, we'll chauffeur you to the airport. And bring you home again.

We believe you should be able to enjoy the best of both worlds, anywhere in the world you choose. So our cruise and stay packages let you combine the sensations of the sea with the luxuries of the land.

We believe cruising the ocean shouldn't cost the earth.

So we believe the amount you pay should come as another pleasant surprise.
